INTERNATIONAL PRELIMINARY REPORT ON PATENTABILITY

International application No.

PCT/FI2004/000777

Box	No. I	Basis of the report					
1. With regard to the language, this report is based on:							
	\boxtimes	the international application in the language in which it was filed					
		a translation of the international application into which is the language of a translation furnished for the purposes of:					
		international search (Rules 12.3(a) and 23.1(b))					
		publication of the international application (Rule 12.4(a))					
		international preliminary examination (Rules 55.2(a) and/or 55.3(a))					
2.	2. With regard to the elements of the international application, this report is based on (replacement sheets which have been furnished to the receiving Office in response to an invitation under Article 14 are referred to in this report as "originally filed" and are not annexed to this report):						
	\boxtimes	the international application as originally filed/furnished					
		the description:					
		pages as originally filed/furnished					
		pages* received by this Authority on					
1		pages* received by this Authority on					
•		the claims:					
		pagesas originally filed/furnished					
		pages* as amended (together with any statement) under Article 19 pages* received by this Authority on					
		pages* received by this Authority on received by this Authority on					
İ	Ll	the drawings: pages as originally filed/furnished					
		pages* as originally meditarises					
		pages* received by this Authority on					
		a sequence listing and/or any related table(s) - see Supplemental Box Relating to Sequence Listing.					
3.		The amendments have resulted in the cancellation of:					
		the description, pages					
		the claims, Nos.					
1		the drawings, sheets/figs					
		the sequence listing (specify):					
		any table(s) related to the sequence listing (specify):					
4.		This report has been established as if (some of) the amendments annexed to this report and listed below had not been made, since they have been considered to go beyond the disclosure as filed, as indicated in the Supplemental Box (Ru 70.2(c)).					
		the description, pages					
		the claims, Nos.					
		the drawings, sheets/figs					
		the sequence listing (specify):					
		any table(s) related to the sequence listing (specify):					
*	If ite	em 4 applies, some or all of those sheets may be marked "superseded."					

INTERNATIONAL PRELIMINARY REPORT ON PATENTABILITY

International application No.

PCT/FI2004/000777

Box No. V Reasoned statement under Article 35(2) with regard to novelty, inventive step or industrial applicability; citations and explanations supporting such statement

1. Statement

Novelty (N)	Claims Claims	1-13	YES NO
Inventive step (IS)	Claims Claims	1-13	YES NO
Industrial applicability (IA)	Claims Claims	1-13	YES NO

2. Citations and explanations (Rule 70.7)

The invention relates to a non-contact power feeding arrangement and method for electric loads mounted in tires of vehicles. The invention solves the problem of a non-contact power feeding by using a coil arrangement comprising four coils in a tire and a corresponding coil arrangement in a vehicle.

Reference is made to the following documents:

D1: JP2003151064 A

D2: JP8136383 A

D3: JP2000255229 A

D4: US4567459 A.

The cited documents represent the general state of the art.

The invention defined in amended claims 1-13 is not disclosed by any of these documents.

The cited prior art does not give any indication that would lead a person skilled in the art to the claimed power feeding arrangement and method. Therefore, the claimed invention is not obvious to a person skilled in the art.

Accordingly, the invention defined in claims 1-13 is novel and is considered to involve an inventive step. The invention is industrially applicable.
